No.2601-D1/51 dated 27th August, 51.

Subject: Industries- Sericulture- Government silk Filatures- Kollegal- Import of Atwood's Silk Twisting machinery from United States of America- Installation of-availing of the services of an erector of Messrs. Brady and Company, Proposal.

Reference: G.O.Ms. No.3819-Development dt. 19/7/48.

I have already reported to Government in this office letter No.5402-D1/48 dated 27th April, 1951, that the Atwood's silk twisting machinery, the purchase of which was sanctioned in the G.O. cited, has been received at the Government Silk Filatures, Kollegal. The bobbins required for this machinery are however not yet received but it is expected that they will be received within about two months. The question of erecting the machinery departmentally was examined in consultation with the Sericultural Expert, Kollegal who has reported that it would be desirable to entrust the work to the suppliers viz., Messrs. Brady and Company themselves. Messrs. Brady and Company, have offered the services of an erector for the purpose on the conditions detailed below.

1. Salary of erector Rs.500/- per mensem.
2. Second class Travelling from Bombay to factory site and return plus- expenses on train and conveyance to and from station.
3. Free accommodation to be provided including food, Dhoby, Servant etc.,
4. Free travel from lodging to factory site and back again.
5. Hours of work 8.30 A.M. to 12.30 P.M and 1.30 to 5.30 P.M.
6. All local labour to be provided by Department.

As the expenditure that may have to be incurred to meet food etc., of the erector was not definitely mentioned, the firm was asked to quote a lumpsum figure, but they have expressed their inability to do so on the plea that they are not aware of the local conditions and they cannot bind themselves to any definite figure in this regard. The Sericultural Expert, Kollegal was therefore asked to furnish the estimate of expenditure based on the cost of living, and probable duration of erection. He has reported that the work of erection of the machinery could be completed within a period of two months and that the probable expenditure that may have to be incurred by Government will be Rs. 2500/- as per details furnished below:-

1. Salary of the erector at Rs.500/-p.m. for 2 2 months:	Rs. 1000
2. Second Class Travelling Expenses from Bombay to Maddur and back..	Rs. 112
3. Expenses on train and conveyance to and from station.	Rs. 100
4. Boarding expenses at Rs.7/8/-per day (for 2 months).	Rs. 450

/p.t.c/

5. Dhobi expenses at Rs.20/-p.m. for 2 months. Rs. 40
6. Servant at Rs.30/-per mensem for 2 months. Rs. 60

Unforeseen expenditure at Rs.350/- per month for two months: Rs.700

T o t a l:- Rs.2460
or Rs 2500/-

The erector will have to be provided with rent free accommodation within the premises of the filatures.

The silk twisting machinery consists of delicate mechanism and it is necessary that a qualified technician be appointed to erect it. I therefore request that Government may be pleased to permit me to utilize the services of an erector on the conditions stipulated by Messrs. Brady & Co., and to sanction an expenditure not exceeding Rs. 2,500/- in regard thereto. The expenditure will be met from the sanction of Rs. 3,75,000 accorded in the G.O. cited above.

I request early orders of Government.

Dev. No. 44930 24.4.52

Sir,

Sub: Industries - Sericulture - Government Silk Filature - Kollegal - installation of Atwoods silk twisting machinery - Availing of the services of an erector of M/s.W.H.Brady & Co. Extension of the services of the erector beyond two months - proposals - submitted.

UNDER SECRETARY 24 APL 1952 DEVELOPMENT DEPARTMENT

Ref: G.C.No.4436, Dev., dated 5-10-1951.

In the G.C. cited above, Government were pleased to sanction an expenditure of Rs.2500 for engaging the services of an erector for the installation of the Atwoods silk twisting machinery at the Government silk filature Kollegal. It was also ordered that the erection work should be completed within a period of 2 months. M/s. Brady & Co., deputed their erector on 6.2.52 and the erection work which was commenced on 7.2.52 is in progress . The Sericultural Expert, Goverment Silk Filature has now reported that certain parts of machinery and found to be either broken or missing and that the representative of M/s. Brady & Co. who visited Kollegal recently informed him that it would take about a month and a half for the replacement of the broken or missing parts. It is further reported that the erection of some of the machineries which are of complicated nature requires careful handling. The Sericultural Expert, therefore expects that the erection work will take two months more to be completed.

2 I enclose herewith two statements showing the expenditure so far incurred on the erection of the plant and the extra expenditure required for completing the erection. In the circumstances explained above I request that Government may be pleased to sanction the extension of the services of the erection of M/s. Brady & Co. for a further period of 2 months from 7.4.52 as also an additional expenditure of Rs.1000 for the purpose. In anticipation of Government sanction, I have permitted the Sericultural Expert to retain the erector beyond 7.4.52 and request that my action may kindly be approved.
